

LED Lens – AMSTERDAM 38°

Material

Part name:	LED Lens
Part no.:	1500655
Design:	Amsterdam 38°
Substrate:	SUPRAX® 8488 Borosilicate Glass
Height:	20,5 mm
Diameter:	63 mm

Customs tariff number

70140000

01v00

Customize it...

Our processing centers offer the following customization options:

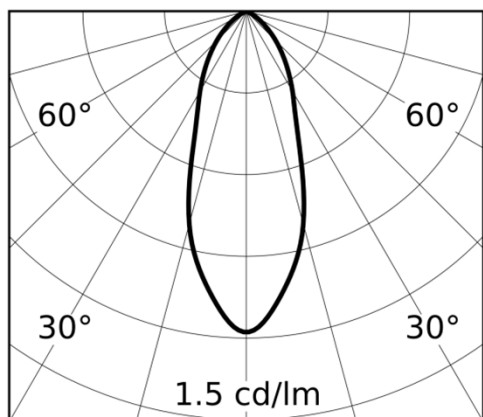

- Individual masking
- Individual geometries & cuts
- Individual polishing & surface finishing

Please send us your drawing via the [contact form](#) or to Info@auer-lighting.com.

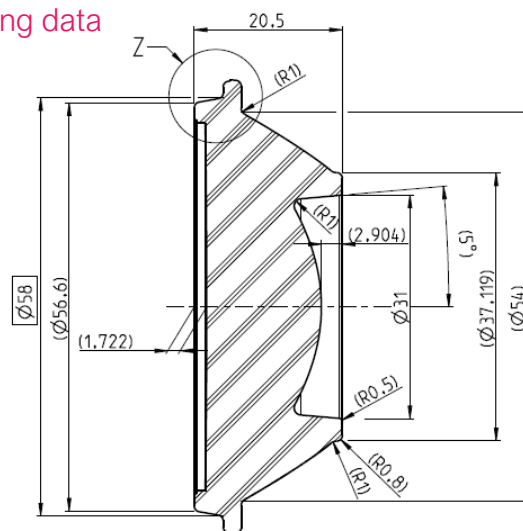

Characteristics

Weight:	approx 78 g
Heat resistance :	up to 400°C
Beam Angle:	38°
Field Angle:	93°
CBCP:	1,0 cd/lm
LES:	19 mm

Light design

Drawing data

LEDs

Osram, Cree, Nichia, Bbridgetlux, Citizen

Applications

Creative and sophisticated lighting solutions
Suitable for LED
Architectural lighting
